

Tuesday 24:

14:30-16:00

"The interface interior - 1D/3D atmosphere"

animated by M-A Dupret, T. Morel, B. Plez +3D representatives

16:00-16:30 : Coffee break

16:30-17:00 : "Treatment of diffusion for the model grid"

animated by O. Richard

17:00-17:30 : "The first model comparison exercise"

by M-A Dupret

Wednesday 25:

9:30-9:45: "The role of WP121 and 127" in the WP120 structure

by MJ Goupil

9:45-10:15: "WP121 Stellar models"

by Marc-Antoine Dupret

10:15-10:30 "WP121 100 1D Stellar models"

by Yveline Lebreton

10:30-10:40 "WP121 110 Very low mass stars"

by S. Cassisi

10:40-10:50 "WP121 120 Low mass stars"

by J. Montalbán

10:50-11:00 "WP121 130 Theoretical oscillation frequencies

by J-C Suarez

11:00-11:30 Coffee break

11:30-11:45 "Transport processes"

by A. Palacios

11:45-12:00 "WP121 300 PMS evolution"

by J.-P. Marques

12:00-12:15 "WP121 400 2D/3D Stellar evolution"

by M. Rieutord

12:15-12:30 "WP121 500 Evolution of stars in multiple systems by S. Mathis"

12:30-14:00 : Lunch
